Monica,

Can you (or someone) please send Sarah and I a clear, hard copy of the FR notice? The one you scanned is a hard to read in a few places and we need to be 100% accurate. Plus we need a good copy for our files/archives. Sarah's address is:

Sarah Reeb

Booz Allen Hamilton

Washington, DC 20005

My mailcode is 5106P so I think you can use intraoffice mail for me

Thanks
Tim

Hi Tim,

That would be great – I have gotten used to deciphering those older PDFs as I'm typing up the other updates, but this one does look a little less clear.

What is your mailing address? I can email her to ask for a hard copy. (My address is below in case you talk to her first).

Thanks,

Sarah,

When I look at what Monica sent most of it is legible but some of it appears illegible. While you can get started with this, we could have Monica send you (and I) a hard copy in the mail. That way we would have a fully legible copy for our files. What do you think?
Tim

Hi Monica,

Thanks for sending this! This will work – it is good to have for documentation, but I am also using it to re-create the Master Docket List from the original versions, to verify the accuracy of the list we are using now. I have all of the Docket Updates, starting with the one published on November 16, 1988. This initial list is the only one I was missing.

Thanks again!

Sarah

Hi, All,

Below is the attachment the scanned copy of the Fed Reg, Vol. 83, No. 29, Friday, February 12, 1988, Notices. pp. 4280-4303

See if it comes through ok. When I opened it as well as printed the first page, it was legible. If it is not, I can do a FAX, although I have my doubts that FAX is better than scan. If all else fails, I can copy it and mail it by pouch to DC.

I am guessing, but I think, the reason you need the original print Federal Register issue preamble and list .pdf copy, is for evidence/documentation? Each of the subsequent Preambles' texts are a bit different from each former one, aside from the tables formats which changed sometimes, and at one point in the 1990's OSRTI changed the NFRAP Status to SEA (Site Evaluation Accomplished) and the Docket Updates NFRAP table title was changed from NFRAP to Federal Facilities Docket and in brackets (SEA Status Facilities) for the February 1993 and November 1993 Updates. - Just a heads-up, in case you were wondering.

If you have any further questions or need more information, please feel free to get in touch with Helen or me.

Have a good day! Cheers, Monica.
